

Electronics

The Katoh Hispania Series is fitted with the SG1 Digital Smart Pickup, developed and produced by the manufacturer in conjunction with DOUBLE Acoustics. It is a fingerstyle pickup with dual inputs of an under-saddle piezo and a microphone to fully reproduce every detail of your playing. The system includes DOUBLE's DSP module which includes hi-fi grade reverb and delay effects.

The SG1 can be connected to headphones for private practice or to an amplifier for performance. OTG function to USB-C charging socket allows for connection to mobile phones or computers without the need for soundcard conversion.

- Piezo volume control
- Mic. volume control
- DSP simulate the sound of body
- Reverb/Delay effect control
- Piezo tone
- Mic. tone
